Jayanth Dasaroju

Full Stack Developer

◉ Hyderabad, IND ☎ +91 8019357855 @ jayanthdas@outlook.com ⧟ linkedin.com/in/jayanth-dasaroju ▢ Portfolio

Summary

Results-driven Java Full Stack Developer with strong foundations in cybersecurity and cloud infrastructure. Proficient in building scalable, secure, and responsive web applications using React, Spring Boot, and modern DevOps tools. Google Cloud Certified Associate Engineer with additional certifications in RPA, Azure, and Juniper Networks. Hands-on experience in leading full project lifecycles and integrating secure authentication, RESTful APIs, and cloud services. Committed to delivering high-quality software and user-focused digital solutions.

Experience

Cisco Networking Academy   **May 2023 - July 2023**
Intern   Remote

I successfully completed the Cisco AICTE Virtual Internship Program 2023 in Cybersecurity, focused on enabling the skillsets of the future. This experience enhanced my practical knowledge in defending against cyber threats and deepened my understanding of cybersecurity.

Freelance   **November 2023 - September 2024**
Frontend Web Developer   Vijayawada

- Designed and launched custom Shopify storefronts using Liquid and React
- Integrated marketing automation via Meta Ads and Google Analytics
- Boosted traffic and engagement through performance optimization and A/B testing

Education

KL University   **AUG 2021- MAY 2025**
Computer Science and Engineering   Bachelor of Technology
8.9 GPA

Specialization: Cybersecurity & Web Technologies

Skills

Languages:
Java, JavaScript, HTML, C, C++, SQL

Frontend:
React.js, Tailwind CSS, Bootstrap, Axios, Redux

Backend:
Spring Boot, Spring Security (JWT), REST APIs, Maven

Database:
MySQL, PostgreSQL

DevOps/Cloud:
Google Cloud Platform (GCP), Azure

Tools:
Git, GitHub, VSCode, IntelliJ, Postman, Docker

Accomplishments

- Conducted research on emotion analysis from text and authored a publication paper.
- Developed Astrology Prediction System in Skill Development program.
- Performer in AtCoder, a Japan-based contest.

| **Projects** | **OrderFlow360** | **Oct 2024- Present** |
| | Custom Shopify App for Order & Subscription Management | |

Currently building a full-stack embedded Shopify app to streamline order and subscription workflows for merchants. The app handles secure authentication via Shopify OAuth, dynamic dashboarding, and webhook event handling (e.g., app/uninstalled). We're integrating Cloudflare Durable Objects for scalable session and data storage, and leveraging Prisma for seamless data access. UI is being built with Shopify Polaris for native look and feel.
Tech in Use: Remix, React, Prisma, PostgreSQL, Cloudflare Workers, Shopify Admin API, Vite, Tailwind CSS, Polaris

JobBoard Pro – Full Stack Job Portal   **Sep 2024 - Dec 2024**

Built a secure job application platform with **React.js frontend** and **Spring Boot backend**. Features include user authentication (JWT), role-based access (Admin, Recruiter, Candidate), job posting, and applicant tracking.
Tech Used: Java, Spring Boot, React, MySQL, JWT, Netlify, Render

Learnify — Online Course Platform   **Feb 2024 - May 2024**

Developed a learning platform with support for instructor and student roles, course creation, and video streaming. Includes progress tracking and secure login.
Tech Used: Spring Boot, React, MongoDB, Netlify

FinTrackr — Smart Expense Tracker   **Feb 2023- May 2023**

An expense tracking app with dynamic charts and PDF/CSV export features. Enables users to log, filter, and visualize expenses with a responsive UI.
Tech Used: React, Spring Boot, PostgreSQL, Recharts, JWT
